North Campus: Abul Fazal Enclave D Block
Jamia Nagar, New Delhi 110025

South Campus: Kanchan Kunj Main Road
South of Kalindi Kunj, New Delhi 110076

Praise be to God, the Cherisher and Sustainer of the worlds, Most Gracious Most Merciful ! Master of the Day of Judgement ! Thee only do we worship and Thine aid we seek. Show us the straight way. The way of those on whom Thy has bestowed Thine Grace, not of those who earn Thine anger, nor of those who go astray. Amen !

Morning Prayer at God's Grace

God's Grace students watched proceedings of the Parliament

Hello, God's Grace Community and Fellow Citizens living in and around the God's Grace area

In any decent society the principles of justice, equality and equity are of fundamental importance. This entails acquiring knowledge, wisdom and skills to carry out one's duties. That is why the people are judged by their knowledge and understanding.

The education system must comprise (a) the belief in the oneness of the Creator, (b) charity and brotherhood among mankind, (c) subjugation of personal passion, (d) accountability of human actions and (e) developing a sense of social consciousness and enjoining what is right and forbidding what is wrong.

Thus, education has a multidimensional impact on communities and it is widely recognized as one of the building blocks for sustainable development. It is instrumental in promoting equal opportunities and higher standard of comfortable living. That is the reason why the Right to Education is a fundamental child right as enshrined in Article 21A of our Constitution.

Thanks to the dedicated and committed team of staff, sincere and hardworking students, cooperative and understanding parent community because of whom God's Grace has been able to achieve the heights of glorious service to the community as reflected from this brochure. So, let us keep the flame burning.

Dr. Nazira Mahmood

Water Purification Plants, Electric Generators, Inverters, CCTV Network, Intercom Connections, Fire Extinguishers

Spacious, airy classrooms, Science Lab, Computer Lab, Library

Personal attention to the children , Ideal Teacher-Student Ratio

Extra-curricular Activity instilling Mutual Bondage among the children under close supervision of competent and experienced teachers

Expert positive channelization of inherent playfulness

SEEK KNOWLEDGE 'EVEN AS FAR AS CHINA'

Santa teaches that it takes a wide variety of talent and skills to achieve ambitious goals. He has the kind of personality and attitude that keeps the team going strong, even in the hardest of times. North Pole is frozen all over. Yet somehow he manages to recruit a team of elves and other helpers that help him get the job done flawlessly.

After centuries of nurturing the concept of building and delivering toys to children worldwide, Santa is surely an operations mastermind. He builds the right team, the right production lines and has cornered the niche on toy-making for boys and girls. One does not see him trying to get into fast food, branded goods, or the latest fashion. He knows what his workshop is good at and he's focused on keeping heart at the right place.
